

Nautical Cloud Competitor App

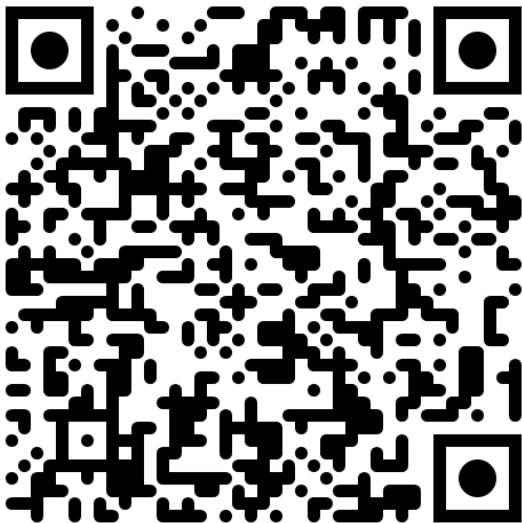

What does the app do?

The Nautical Cloud Competitor App allows skippers and crew members to access the noticeboard and race details through an iPhone or Android app. It also enables you to complete the check-in and finish declaration.

Where do I find the Nautical Cloud app?

The Nautical Cloud Competitor App is available on both the App Store and Google Play Store. You can find it by searching for 'Nautical Cloud Competitor App' or by scanning the QR code below.

App Store

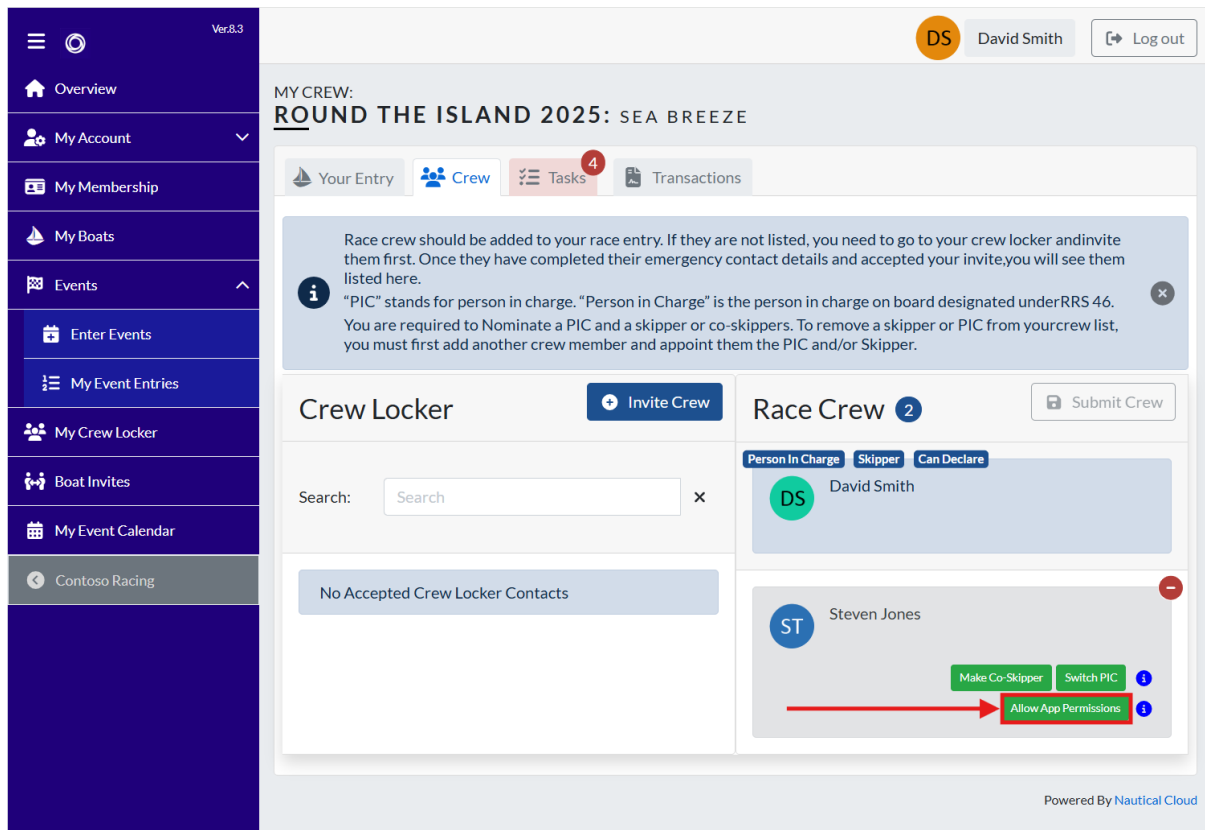

Google Play Store

Granting Crew Access for completing Check-In and Finish Declarations

Skippers can grant a crew member permission to complete the check-in and submit the finish declaration on their behalf. To do this, go to My Event Entries > Crew, then select Allow App Permissions.

Finish Declarations

Once you have crossed the finish line, you can submit a finish declaration within the app. Here, you can enter your finish time, along with the name of the boat ahead and the boat behind.

We will send a declaration link by text and email also. You can choose any of these methods but only need to complete one. Please note that the skipper or designated crew member (see above) are those with permissions to input the finish information.
